

Operation Cat ID program

We created the **Operation Cat ID** program in October 2010 as a way to promote cat identification. **Operation Cat ID** ensures every cat or kitten adopted goes home with a stretch collar with their microchip ID tag attached to it. This will give lost pets a better chance at making it home safely. *Did you know only 3% of stray cats that arrive at the PEI Humane Society get reunited with their owners?*

Each stretch collar cost the Society approximately \$4.00 and with the continued support of sponsors and individual donors, we'll be able to give every adoptable cats the precious gift of identification.

Our thanks go to these kind people and organizations who have made donations towards the **Operation Cat ID** program:

- Reverend Gene Carson
- Pat and Henri Srebrnik
- AVC Class of 2010
- Harris Computers System

If you would like to sponsor the **Operation Cat ID program**, please contact PEI Humane Society Development Coordinator Lisa Hashie by email: lhashie@peihumanesociety.com or by phone: 902-892-1190 ext 24.
